

T6 Centrally Connected Radiator

Thanks to innovative centre-connection technology and optimum energy efficiency, the T6 sets the standard for room heating, comfort and ease of use.

The T6 is available in over 200 sizes with four models to choose from.

- Central connection makes installation a breeze
- Installation flexibility with movable brackets
- Available in 71 colours (on indent)

T6

The Pioneer in the Central Connection Segment

Energy Saving Goals

Compared to sectional radiators, test results show that panel radiators by Vogel & Noot, offer average energy savings of 15%. *

Swift and Prompt

As the leading centrally connected radiator, the T6 sets the bar high in terms of heating performance.

Customisable to Suit Every Need

The T6's built in valve and its thermostatic head can be switched from either side of the radiator - with no need to turn the radiator and without crossing over the supply and return. The T6 also comes in a vast array of sizing options to match your personal heating requirements.

Overview of models																				
Type	11 VM (Indent)					21 VM-S					22 VM					33 VM (Indent)				
<div><div>↑</div><div>↓</div></div> <div><div>↔</div></div>																				
																				
	Single layer with a convection sheet					Double layer with a convection sheet					Double layer with two convection sheets					Three layers with three convection sheets				
Type	11 VM					21 VM-S					22 VM					33 VM				
Height <div>↑</div> [mm]	300	400	500	600	900	300	400	500	600	900	300	400	500	600	900	300	400	500	600	900
Length <div>↔</div> [mm]	up to 2400		up to 2600		up to 2000	up to 2400		up to 3000		up to 2000	up to 3000		up to 2000		up to 3000	up to 2200		up to 1800		
Steps	All overall length starting with 400 mm available in steps of 200 mm, additionally 520, 720, 920, 1120 and 1320 mm																			

* Compared to old sectional steel radiators; test results according to FHS Pinkafeld
